## PROFESSIONAL SUMMARY

IT professional with 4+ years of experience delivering enterprise-level technical support across global environments, with specialized expertise in German-language client communication. Proven ability to manage end-user incidents, administer identity and access systems (Active Directory, Microsoft Entra ID), and support Microsoft 365 and Windows infrastructures in fast-paced, SLA-driven settings. Adept at working across ITSM tools including ServiceNow and Confluence, with a strong foundation in cloud technologies, network administration, and accessibility support. Currently pursuing advancement in cloud engineering and cybersecurity, backed by Google IT certifications and hands-on experience with Azure, Intune, and enterprise IAM frameworks.

## EXPERIENCE

### App/Cloud Technical Support Analyst, *Accenture*

11/2024 – Present

Gurugram, Haryana

- Delivered end-to-end technical support to enterprise users globally, including German-speaking international clients, ensuring timely incident resolution and minimal disruption to business operations.
- Managed the full incident lifecycle — logging, tracking, prioritizing, and closing tickets in ServiceNow — in strict adherence to ITIL best practices and SLA commitments.
- Supported Microsoft 365 suite (Outlook, Teams, OneDrive, SharePoint) with hands-on configuration, access management, and issue resolution for day-to-day productivity workflows.
- Managed user provisioning, access rights, and security group assignments through Active Directory and Microsoft Entra ID (Azure AD), supporting security compliance and governance standards.
- Administered user account lifecycle operations including creation, modification, and deactivation aligned with role-based access control (RBAC) policies.
- Diagnosed and resolved Windows 10/11 issues including startup failures, patch management, driver conflicts, and user profile corruption.
- Configured and onboarded new corporate devices into the network environment, including hardware setup, OS configuration, and policy enforcement.
- Managed DHCP server operations to resolve network connectivity issues and maintain stable IP address allocation across the enterprise environment.
- Supported remote workforce connectivity through VPN setup, RDP configuration, and virtual smart card authentication, ensuring seamless and secure remote access.
- Resolved printer issues spanning connectivity failures, driver errors, and installation problems across physical and network-connected printers.

### Senior Systems Administrator, *ITC Infotech*

04/2024 – 11/2024

Bengaluru, Karnataka

- Administered Windows, Office, Active Directory, and network infrastructure. Managed DHCP and resolved network issues.
- Worked as L1-L1.5 support and communicated with German-speaking users to resolve inquiries and issues.
- Added and configured new devices in the company network.
- Assigned static and dynamic IP addresses to devices.
- Troubleshooted printer issues (installation, connectivity, driver problems).
- Managed user access and permissions through Azure AD.
- Resolved all types of Windows issues.
- Used tools like Azure, Microsoft 365 Admin Center, ARS, AD, Intune, Bomgar, ServiceNow, and Confluence.

## EXPERIENCE (CONTINUED)

### Senior Associate / German Language Technical Support, Wipro Limited

12/2021 – 09/2023  
Hyderabad

- Worked for Wipro Technologies as Google T1 accessibility technical support (German).
- Proactively identified solutions to common user issues.
- Provided technical support to users on accessibility technologies.
- Communicated with global users via phone, live chat, and email to diagnose and resolve accessibility and technical issues.
- Dealt with Google platforms featuring native Android support.
- Adhered to quality and service standards to support operational goals.
